biedronka.feature x

login.feature x

1 Feature: Login

2

3 Scenario: Login with correct credentials

4 Given I go to login page

5 When I type login "tomsmith" and password "SuperSecretP

6 # When I type "tomsmith" as login

7 # And I type "SuperSecretPassword!" as password

8 # And I click login button

9 Then I see that user is logged in

10

11 Scenario: Login with wrong password

12 Given I go to login page

13 When I type login "tomsmith" and password "abadasdasdas

14 # When I type "tomsmith" as login

15 # And I type "abadasdasdasasddas" as password

16 # And I click login button

17 Then I see that user is NOT logged in

18

19 Scenario Outline: Login

20 Given I go to login page

21 When I type login "<login>" and password "<password>"

22 Then <expectedResult>

23 Examples:

24 | login | password | expectedResult

25 | tomsmith | SuperSecretPassword! | I see that user is

26 | tomsmith | abadasdasdasasddas | I see that user is

27
